Vincent Edward Lin

330 De Neve Drive DEN-B406 Los Angeles, CA 90024
(+1) 4242909064 · vinlin24@outlook.com · https://github.com/vinlin24

Hobbyist coder that loves automating things and making silly programs. A little late to the CS party†, but eager to catch up. Looking for programming positions to gain real-world software engineering experience.

EDUCATION

UCLA **Los Angeles, CA // Oct. 2020 - present**

- **Program:** Biochemistry BS, Specializing in Computing, †switching to Computer Science
- **Degree expected:** June 2024 (current 3rd year)
- **Current GPA:** 3.976
- **Coursework:** Computer Science (theory and C++); Computer Systems (C and x86-64), Digital Systems, Programming (Python), Multivariable Calculus, Linear Algebra, Differential Equations, Discrete Structures

PROJECTS

Private Discord bot https://github.com/vinlin24/tacobot-public

Stack	Description	Skills Learned
Python, discord.py, Heroku, AWS S3	Music player, server moderation tool, math/chem help tool, etc. for my friends' server. Currently developing an upgrade, also viewable in the public repo tacocat.	• Using APIs and their documentation • Managing development & production versions • Using and deploying to PaaS • Asynchronous programming

Mudae auto-roller https://github.com/vinlin24/waifu-roller

Stack	Description	Skills Learned
Python, argparse, PyAutoGUI	Silly project to automate rolling for "waifus" on the Discord bot Mudae from the command line. Installable and configurable.	• CLI design • Building/distributing packages • Open-source practices

Day counter updater https://github.com/vinlin24/counters

Stack	Description	Skills Learned
Python, Selenium, JSON Schema	Updates my bio/status on multiple social media platforms every day with a configurable "day X of…" template.	• Web automation • Writing & validating JSON schema for config • Making extendable code (adding platforms)

…among smaller scripts like enhancing the Windows context menu with PowerShell. Check out my GH for more!

SKILLS

Languages (by proficiency)	Fluent in Python. Familiar with PowerShell and JavaScript. Learning HTML/CSS and SQLite. Prior exposure to C/C++ and Java.
Software	Visual Studio Code, Git, GitHub, MS Office (Word, PowerPoint, Excel).
Frameworks	discord.py for Discord bots. Selenium for web scraping. Learning Flask for web development.
Learning	Mostly self-taught. Loves coding and always on the lookout for best practices.
Interpersonal	Always available for contact and a fast replier. Willing to help, teach, or be taught.
Linguistic	Native English speaker. Understands conversation-level Mandarin and basic Spanish.
